

**The Zubyk Family**

*It is not too often that an organization places its roots in a community that has such an impact. The Great Valley Community Organization is such an organization.*

*I grew up in this area and attended Great Valley high school. My career has allowed me to travel around the world and I still find this area where we live incredibly special. Our family had the chance to experience the wonderful Girls basketball league with both of my daughters playing, coaching, and refereeing. In my opinion, the greatest aspect of the experience was not necessarily the games played but working as a team, having fun, and life lessons taught.*

*Although our daughters are well past their GVCO experiences, our family enjoys supporting wonderful organizations like the GVCO. Keith Walsh knows this and when the opportunity presents itself, he has his wonderful way of asking. He has recently approached Liz and I about an amazing student named Owen Li. He is a Boy Scout and was contemplating what project he could perform for his Eagle Scout Project. He turned to the GVCO and wanted to build a stone wall along the size of the athletic field. I had a chance to meet with him as well as his father and was so impressed with every aspect of their lives. They have a remarkable story to tell and their desire to give back in the ways they have and continue to do are what America stands for. We typically do not like to disclose or broadcast any Random Act of Kindness we provide, but Keith Walsh asked us to do it this one time. I can only hope all who experience the new facility and all it stands for will take the time and give either time or financially.*
