CARING HANDS

GREAT VALLEY COMMUNITY ORGANIZATION

Caring Hands Program Description:

The Great Valley Caring Hands was created for the purpose of raising funds for those persons, families, or organizations in our community who have suffered some catastrophic event.

As a student-run community outreach program, Caring Hands was started by a few kids to raise scholarship money for Great Valley students affected by a sudden death in the family. Now, Great Valley Caring Hands has been expanded by the students to include food drives, activities with seniors, volunteering in homeless shelters, and assisting with other community events in raising awareness and funds for those in need.

GVCO looks for student volunteers who are willing to donate their time and energy to benefit the community. Great Valley Caring Hands hosts a number of fundraising events and volunteer opportunities to help others.

Mary Decker, Peoples Pantry Director

"On behalf of the People's Pantry at Church Road, I would like to thank the GVCOCaring Hands group for all the work that went into the food drive held at the Paoli Acme on June 3rd. An amazing 274 pounds of food along with \$114.25 was collected for our pantry."

Kathy Sullivan, West Chester Senior Center Director

"Thank you so much GVCOCaring Hands! It was so great to receive your initial phone call and what a wonderful result it led to yesterday! The group of kids have pulled together what will make for a great Thanksgiving next week for about 225 people - WOW!"

Thea Howard, GVCO Caring Hands Student President

"Caring Hands was one of the first major leadership roles I ever committed to. It has taught me that I have a true passion for helping out our community and leading others to achieve a greater goal. The work we have done so far as a club has made me so proud of the group and really showed how giving back and benefiting others is such a crucial part of life. I also love how this role has allowed me to express my passion for other topics and concerns."

Program Objectives:

- ➔ Connect students who are dedicated to making a difference in the community and providing them the tools and support to succeed.
- ➔ Students will be challenged to meet and exceed expectations of themselves and the impact of their actions in the community.
- ➔ Students will become familiar with the needs of other organizations in our own community.

CHALLENGER GYM

GREAT VALLEY COMMUNITY ORGANIZATION

Challenger Gym Program Description:

Established in 2007 Challenger Gym was designed to provide a community after-school gym program for school age students of all grade levels who have physical or extra challenges. It was inspired by a Great Valley middle school student who loved sports and needed a program to accommodate the additional needs that go along with a wheelchair. Now Challenger Gym fills a niche for children who would have difficulty participating in traditional community sports programs.

The emphasis is on having fun, providing physical activities in which the kids can successfully participate, and building relationships between kids with extra challenges and local high school volunteer "buddies".

Program Objectives:

- ➔ Kids of all ages and all abilities are welcome to participate.
- ➔ Providing an after school program for school-age students looking for a fun, non-competitive alternative to traditional community sports.
- ➔ Pairing a volunteer high school buddy with kids for best connections.

Wendy Morris, MPT Program Director

As a physical therapist, Wendy has been working with children with physical challenges for almost 30 years. She has worked with children in the hospital setting, outpatient clinics, school settings and in homes. The children she works with range in age from infants to 21 years. Her caseload has included mentally fragile children, children with diagnoses including cerebral palsy, developmental delays, children with coordination delays and extra sensory needs.

"When you are a parent of a child with extra needs, it can be challenging to find appropriate and fun extra-curricular activities in which their children can participate successfully." Wendy Morris

This was the impetus for Wendy to partner with GVCO to begin Challenger Gym. In existence for 10 years, Challenger Gym enables children with extra needs to participate in fun physical activities. In partnership with GVHS, high school volunteers participate as buddies and enjoy a valuable experience.

PICKLEBALL

GREAT VALLEY COMMUNITY ORGANIZATION

Pickleball Program Description:

Pickleball is a sport that combines elements of tennis, badminton and Ping-Pong. It's a lively racquet sport designed to be easy to learn and play and that is fun for all ages and abilities.

The sport is played with paddles and a plastic, perforated ball (similar to a wiffle ball) on a short, badminton-sized court. You serve underhand and typically games are played as doubles. The net is hung at 34 inches, compared with 36 inches for tennis. A smaller court and slower balls make pickleball a low-impact alternative.

GVCO currently offers pickleball on 4 courts at the GVBL Center. Court time is reserved on a sign up page through our website. We accommodate all levels of play and there are times for beginner, intermediate and advanced players.

Pickleball is one of the fastest-growing sports in America, with more than 3 million participants, according to the Sports & Fitness Industry Association. The association's 2017 pickleball participant report showed that nearly 43% of core players are 65 or older.

**“Come give it a try!
Once you play,
you'll love it
because it's fun and
very social.”**
Jody Powers

Program Objectives:

- ➔ To provide alternative programming for adults and seniors in the community.
- ➔ To offer a low impact fitness option for every adult and older adult in the community regardless of skill level.

YOGA

GREAT VALLEY COMMUNITY ORGANIZATION

Yoga Program Description:

We are very excited to offer Power Yoga at the Community Center and to bring yoga to our Great Valley community in a comfortable, casual environment.

This class will follow the Power Yoga model, a combination of strength moves and movement, as well as helping to improve physical and mental health. Modifications to the poses can be made for all levels.

Whether you are a beginner or you are experienced, this class will have something for all levels.

Please bring a yoga mat, a towel and water. If you don't have a yoga mat, we will have a few to borrow!

POWER YOGA as defined by originators:

"Power Yoga is directed at creating the highest level of energy, vitality, and freedom. The only way to do this is to work with yourself, not against yourself. By working hard sensitively, we create an environment that's healing and that honors each individual, an environment that respects our boundaries and works within him or her. In this way, we create an atmosphere conducive to natural expansion and growth."
BRYAN KEST

Power Yoga is a unique combination of dynamic breathing and strong, flowing movement, which creates a high-heat, high-energy workout. Unlike any other yoga program, Power Yoga is a choreographed sequence of postures that flow into one another, building strength, unwinding tight joints, and loosening muscles.

"I really do believe that the bottom line that creates transformation in the individual is the ability to focus your attention in an ever greater and more subtle way, and that follows the whole path of the limbs."

Beryl Bender Birch

Program Objectives:

- ➔ Offer the benefits of a Power Yoga workout for all skill levels in a comfortable, casual environment
- ➔ Enhance stamina, flexibility and posture while relieving stress and burning calories.
